

DID YOU KNOW?

FEBRUARY 2024

EPCR TRANSFER (FFX TO FFX)

Ideal for situations where a non-transport unit is the initial responder on the scene and begins patient care. That unit can initiate the ePCR and transfer to the transport unit.

1. Download available **CAD** data

2. Unit who started the ePCR:

a. Select **Upload Transfer**

b. Select

i. Transfer to Agency: **Current Agency**

ii. Transfer to Call Sign: **Unit that will be completing the ePCR (Transport Unit)**

3. Unit who is completing the ePCR:

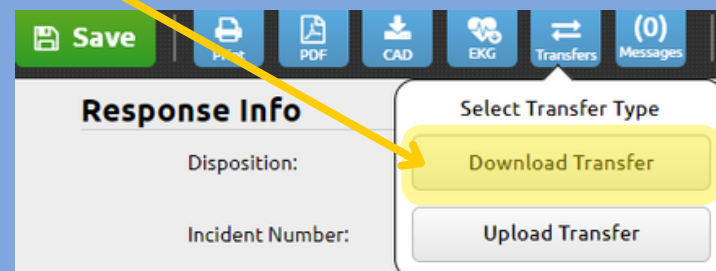

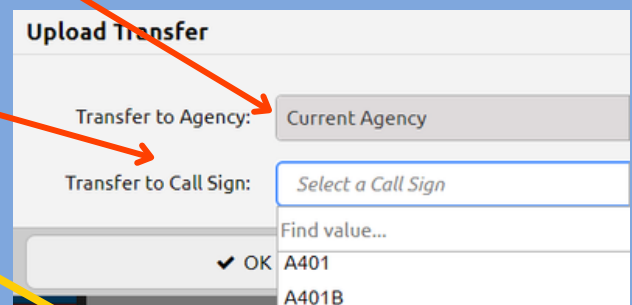

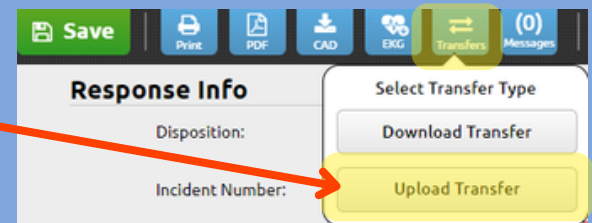

a. Select **Download Transfer**

b. Select

i. Applicable date range

ii. Call Sign: Unit that is receiving the transferred ePCR ('All' is an option well, but opportunity to download the incorrect ePCR)

iii. Select the correct incident and click the download button
