

DID YOU KNOW?

MARCH 2021

FIELD DELIVERIES

When there is a delivery in the field, **both mom and newborn** need an ePCR. Yes, even when the delivery is a stillborn or the delivery occurred prior to our arrival.

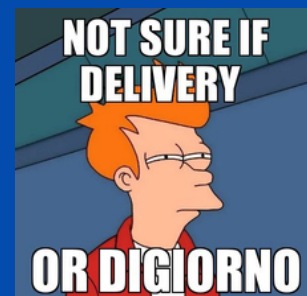

If the mother (patient 1) delivered in the field, make sure to create an ePCR for the baby. We recommend the following naming convention for baby's name on the ePCR:

- ✓ First Name = Baby Girl or Baby Boy
- ✓ Last Name = Mother's Last Name

Patient Information	
Name: Mai, Baby Girl	Address: [REDACTED]
Social Security Number: [REDACTED]	Gender: Female
Date of Birth: [REDACTED]	Age: 1Minutes

Also, report the baby's age correctly in terms of age units (hours, minutes, etc.).
